Valor® XLT – Broad Spectrum Residual Weed Control

Weed resistance is a growing problem...especially with waterhemp, giant ragweed and marestail. Regardless of where you farm and what weed control product you use, a single herbicide mode of action is simply no longer adequate to protect your yield and long-term profitability. Valor® XLT Soybean Herbicide offers the broadest spectrum broadleaf residual control of tough weeds with two proven modes of action.

- Two modes of action to fight the toughest weed spectrum including waterhemp, giant ragweed and marestail
- Contains the proven power of Valor® Herbicide – the leading pre herbicide on the market
- *Valor XLT* will increase yields by controlling weeds before they steal moisture and nutrients from the crop

Valor XLT Performance

Untreated

Valor XLT

| Soybeans – Spring |

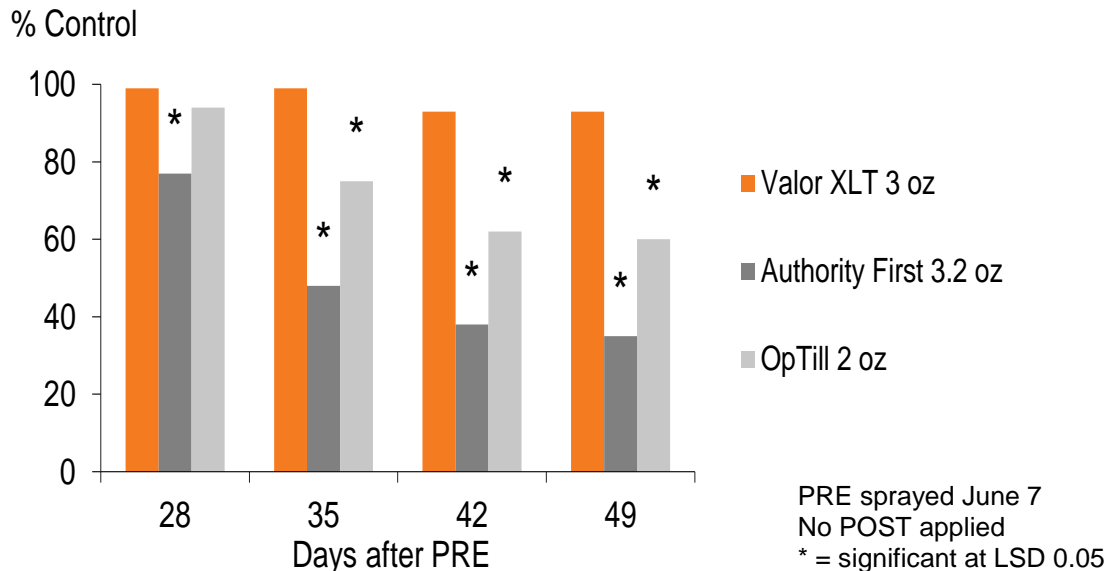

How To Use

Rate Range	3 to 5 oz/A – higher rates result in longer residual & broader spectrum
Timing	Preplant, Preemerg or Fall Applications
Spray Volume	10 to 20 gals/A
Tank Mix Partners	Roundup [®] , 2,4-D, Ignite [®] , dicamba
Roundup Ready PLUS[®]	Valor XLT qualifies for Roundup Ready PLUS soybean incentives. See www.RoundupReadyPLUS.com for full details.

Other Important Information

- Please refer to *Valor XLT* label for rate restrictions based on soil pH
- Consult label for state geographical restrictions
